Third pan-European PAT Science Conference

Scientific Progress Underpinning Innovative Manufacturing Control and Quality by Design

October 7-8 • 2008 • Göteborg • Sweden

This is to invite you to plan for the EuPAT3, the third pan-European Science Conference on Process Analytical Technology (PAT), building on the successes of EuPAT1 in 2006 and EuPAT2 in 2007. It will be held in Göteborg, Sweden, on October 7-8, 2008, in conjunction with the Process Technology Fair. At this event, EuPAT3, special attention will be paid to recent advances in PAT sensors and multivariate process analytics.

The EuPAT Conference Series is a unique forum for scientists and engineers, encouraging and promoting progress in science behind PAT and strengthening the interdisciplinary scientific discussion that bridges between the various fields underpinning PAT. The focus for EuPAT is on scientific progress underpinning Innovative Manufacturing Control and Quality by Design. New findings and results from scientific research and technology deve-

lopment are discussed in the four areas that constitute the cornerstones of sessions of the EuPAT Conferences; Process Informatics; Process Modelling and Understanding; Advanced Process Sensors; and PAT Based Control and Process Integration.

Important Dates

Abstract Submission Deadline	August 25, 2008
Final Programme Available	September 1, 2008
